

## Privacy Policy

This privacy policy sets the using of the following mobile applications, created and maintained by Delolindo Games:

- ChooseSlide Puzzle for kids

### What kind of information does obtain the application and how it is used?

Information provided by the user

The application does not require any registration with Delolindo Games or request any personal information from the user, but it does require the user to keep an account of Apple App Store (iOS) and / or a Google Play Store (Android) in order to download the application.

### Information obtained automatically

Additionally, the application can automatically collect other information, non-personal information, such as: type of mobile device, user's country, IP address, operating system mobile and information on how the application is used.

### Does the application get accurate, real-time device information?

The application does not collect accurate, real-time device location information at any time.

### ¿Can third parties access to the information obtained by the application?

Yes. We may share the information provided by the user or automatically obtained in the following cases:

When required by law.

When we believe it is necessary to protect our rights, protect your safety or the

safety of others, investigate fraud or in response to a government request.

## **Data protection policy**

Delolindo Games is committed to treating the data and information collected with confidentiality by keeping due secret, in accordance with Law 15/1999 of December 13 Protection of Personal Data (LOPD) and Royal Decree 1720 / 2007 of 21 December approving the Regulation implementing Law 15/1999 of 13 December on the protection of personal data is adopted.

## **Cookies**

Sometimes we may use a technology called "cookies" in order to provide a series of contents and / or services in a personalized manner. A "cookie" is a small piece of data that a Web site can send to Web user navigation.

In turn, this element may be stored on the hard disk of the user so that we can recognize when you return to our website. In any case, there is always the possibility that you specify in the preferences of their browser you want, receive a warning before accepting any "cookie".

The data stored in each "cookie" are: date and time of the last time the user visited our Web, content design that the user chose in his first visit to our web and security elements involved in the access control to restricted areas.

## **Changes**

This Privacy Policy may be updated without previous notice.
